

JIRA Integration with Test Case Generation:

Integrating the JIRA with the application using the JIRA URL, Email address and the JIRA API key as an input. On successful

Landing page of the application:

The screenshot shows a web browser window with the URL 'localhost:5173'. The page has a light green background. At the top, there's a navigation bar with a 'User Story to Tests' link. Below this, a large heading 'User Story to Tests' is centered, with a subtitle 'Turn user stories into comprehensive, structured test cases in seconds.' To the right of the heading, there's a button that says 'Connect to your IDE environment'. Below the heading, there's a section titled 'Story details of current story' with a 'Collapse form' link on the right. This section contains four input fields: 'Story title' (with a hint 'e.g., New password for registered user'), 'Description' (with a hint 'Describe the feature, use, and desired outcome to product'), 'Acceptance Criteria' (with a hint 'List the conditions that must be true for the story to pass'), and 'Additional info' (with a hint 'Add constraints, notes, test data, or other context (optional)'). At the bottom of this section, there's a 'Generate Test Cases' button. Below the button, there's a 'Reset' link.

JIRA Stories list:

On clicking a test case in the card:

Story details of SCRUM-11

After clicking on the Generate Test Cases:

Test Cases for Product Details						
Categories: ☐ Positive ☐ Negative ☐ Edge ☐ Ambiguous ☐ Non-functional Generate Test Cases						
REVIEWED	TEST CASE ID	TITLE	CATEGORY	TEST STEPS	TEST DATA	EXPECTED RESULT
☐	TC_PD_001	Display product name	Positive	1. Navigate to a product detail page 2. Observe the product name element	N/A	Product name is visible and matches the value stored in the database
☐	TC_PD_002	View multiple product images	Positive	1. Navigate to a product with more than one image 2. Click the image carousel next arrow 3. Verify the second image is displayed 4. Click the previous arrow 5. Verify the first image is displayed again	N/A	All product images are displayed correctly in the carousel and navigation works
☐	TC_PD_003	Display product price	Positive	1. Navigate to a product detail page 2. Locate the price element	N/A	Price is shown in correct currency format and matches the price in the database
☐	TC_PD_004	Display product description	Positive	1. Navigate to a product detail page 2. Scroll to the description section	N/A	Full product description is visible and matches backend content
☐	TC_PD_005	Add to Cart enabled for in-stock product	Positive	1. Navigate to a product that is in stock 2. Verify the availability label shows "In Stock" 3. Check that the "Add to Cart" button is enabled	N/A	"Add to Cart" button is clickable and adds the product to the cart when pressed
☐	TC_PD_006	Select available variant, update product details	Positive	1. Navigate to a product with size and color options 2. Select a size that is available 3. Select a color that is available 4. Observe any changes to price, image, or availability	N/A	Selected variant is highlighted, product image/price updates if applicable, and "Add to Cart" remains enabled
☐	TC_PD_007	Display product rating and review count	Positive	1. Navigate to a product with existing reviews 2. Locate the rating stars and review count element	N/A	Rating stars reflect average rating and review count matches the number of reviews in the system
☐	TC_PD_008	Out of stock product shows correct status	Negative	1. Navigate to a product that is out of stock	N/A	Product is clearly marked as out of stock and cannot be added to the cart

Filtering only the Negative and Edge test cases:

Test Cases for Product Details						
Categories: ☐ Positive ☒ Negative ☒ Edge ☐ Ambiguous ☐ Non-functional Generate Test Cases						
REVIEWED	TEST CASE ID	TITLE	CATEGORY	TEST STEPS	TEST DATA	EXPECTED RESULT
☐	TC_PD_008	Out of stock product shows correct status	Negative	1. Navigate to a product that is out of stock 2. Verify the availability label shows "Out of Stock" 3. Check that the "Add to Cart" button is disabled or hidden	N/A	Product is clearly marked as out of stock and cannot be added to the cart
☐	TC_PD_009	Selecting unavailable variant prevents adding to cart	Negative	1. Navigate to a product with size variants where one size is sold out 2. Select the sold out size 3. Observe the availability message for that variant 4. Attempt to click "Add to Cart"	N/A	A message such as "Selected variant is unavailable" is displayed and "Add to Cart" button is disabled
☐	TC_PD_010	Product with no images shows placeholder	Edge	1. Navigate to a product that has no associated images 2. Observe the image area	N/A	A default placeholder image is displayed instead of a broken image link
☐	TC_PD_011	Handle extremely long product name and description	Edge	1. Navigate to a product with a name longer than 100 characters and a description longer than 1000 characters 2. Inspect the layout of the name and description sections	N/A	Text wraps or truncates gracefully without breaking the page layout or horizontal scrollbar appear
☐	TC_PD_012	Display the product price = 0	Edge	1. Navigate to a product whose price is set to 0 2. Verify the price element shows "Free" or "\$0.00" 3. Check that "Add to Cart" button is enabled	N/A	Price is displayed correctly as free and the product can be added to the cart

Filtering the positive test cases:

Test Cases for User Login						
Categories: ☒ Positive ☐ Negative ☐ Edge ☐ Ambiguous ☐ Non-functional Generate Test Cases						
REVIEWED	TEST CASE ID	TITLE	CATEGORY	TEST STEPS	TEST DATA	EXPECTED RESULT
☐	TC_UL_001	Login with valid registered email and password	Positive	1. Navigate to the login page 2. Enter a valid registered email address in the email/mobile field 3. Enter the correct password in the Password field 4. Click the login button	email: user@example.com, password: CorrectP@ss123	User is authenticated and redirected to the account dashboard
☐	TC_UL_002	Login with valid registered mobile number and password	Positive	1. Navigate to the login page 2. Enter a valid registered mobile number in the email/mobile field 3. Enter the correct password in the Password field 4. Click the login button	mobile: +1234567890, password: CorrectP@ss123	User is authenticated and redirected to the account dashboard
☐	TC_UL_003	Password field shows, extends, and hides characters	Positive	1. Navigate to the login page 2. Enter any password in the Password field	password.anytext	Entered characters are displayed as masked (dots, e.g., ****)
☐	TC_UL_004	Forgot Password navigation works	Positive	1. Navigate to the login page 2. Click the "Forgot Password" link	N/A	User is redirected to the password recovery page where they can enter email or mobile to reset password
