On clicking a test case in the card:

After clicking on the Generate Test Cases:

Test Cases for Product Details

Categories: ☐ Positive ☐ Negative ☐ Edge ☐ Authentication ☐ Non-Functional

Generate Test Cases

id	test case id	title	category	test steps	test data	expected result
☐	TC_PD_001	Displays product name	Positive	1. Navigate to a product detail page 2. Observe the product name element	N/A	Product name is visible and matches the value stored in the database
☐	TC_PD_002	View multiple product images	Positive	1. Navigate to a product with more than one image 2. Click the image carousel next arrow 3. Verify the second image is displayed 4. Click the previous arrow 5. Verify the first image is displayed again	N/A	All product images are displayed correctly in the carousel and navigation works
☐	TC_PD_003	Displays product price	Positive	1. Navigate to a product detail page 2. Locate the price element	N/A	Price is shown in correct currency format and matches the price in the database
☐	TC_PD_004	Displays product description	Positive	1. Navigate to a product detail page 2. Scroll to the description section	N/A	Full product description is visible and matches backend content
☐	TC_PD_005	Add to Cart enabled for in-stock product	Positive	1. Navigate to a product that is in stock 2. Verify the availability label shows "In Stock" 3. Check that the "Add to Cart" button is enabled	N/A	"Add to Cart" button is clickable and adds the product to the cart when pressed
☐	TC_PD_006	Select available variant & update product details	Positive	1. Navigate to a product with one or more variants 2. Select a variant that is available 3. Select a color that is available 4. Observe any changes to price, image, or availability	N/A	Selected variant is highlighted, product image/price updates if applicable, and "Add to Cart" remains enabled
☐	TC_PD_007	Display product rating and review count	Positive	1. Navigate to a product with existing reviews 2. Locate the rating stars and review count element	N/A	Rating stars reflect average rating and review count matches the number of reviews in the system
☐	TC_PD_008	Out of stock product shows	Negative	1. Navigate to a product that is out of stock	N/A	Product is clearly marked as out of stock and cannot

Test Cases for Product Details

Categories: ☐ Positive ☒ Negative ☒ Edge ☐ Authentication ☐ Non-Functional

Filter Test Cases

id	test case id	title	category	test steps	test data	expected result
☐	TC_PD_008	Out of stock product shows correct status	Negative	1. Navigate to a product that is out of stock 2. Verify the availability label shows "Out of Stock" 3. Check that the "Add to Cart" button is disabled or hidden	N/A	Product is clearly marked as out of stock and cannot be added to the cart
☐	TC_PD_009	Selecting unavailable variant prevents adding to cart	Negative	1. Navigate to a product with out-of-stock variants where one size is sold out 2. Select the sold-out size 3. Observe the availability message for that variant 4. Attempt to click "Add to Cart"	N/A	A message such as "Selected variant is unavailable" is displayed and "Add to Cart" remains disabled
☐	TC_PD_010	Product with no images shows placeholder	Edge	1. Navigate to a product that has no associated images 2. Observe the image area	N/A	A default placeholder image is displayed instead of a broken image link
☐	TC_PD_011	Truncate extremely long product name and description	Edge	1. Navigate to a product with a name longer than 200 characters and a description longer than 1000 characters 2. Inspect the layout of the name and description sections	N/A	Text wraps or is truncated gracefully without breaking the page layout or rendering oddities
☐	TC_PD_012	Display free product price as 0	Edge	1. Navigate to a product whose price is set to 0 2. Verify the price element shows "Free" or "\$0.00" 3. Check that the "Add to Cart" button is enabled	N/A	Price is displayed correctly as free and the product can be added to the cart

Filtering the positive test cases:

Test Cases for User Login

Categories: ☒ Positive ☐ Negative ☐ Edge ☐ Authentication ☐ Non-Functional

Generate Test Cases

id	test case id	title	category	test steps	test data	expected result
